SUMMARY

A Full Stack Developer specializing in the MERN stack (MongoDB, Express.js, React, Node.js). Adept at building scalable architectures, responsive user interfaces, and robust backend APIs. Proven ability to optimize web application performance, manage complex state configurations, and deliver client-focused solutions that maximize user engagement.

TECHNICAL SKILLS

Core Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frameworks & Libraries: React.js, Next.js, Redux Toolkit, Node.js, Express.js, Tailwind CSS

Databases: MongoDB

Tools & Deployment: Git, GitHub, Vercel, AWS, Docker, RESTful APIs, MongoDB Atlas

WORK EXPERIENCE

Full Stack Developer Intern

Developers Hub Corporation

Nov 2025 – Jan 2026

Abbottabad, Pakistan

- Engineered modular React components and optimized frontend rendering workflows, reducing page load latency and improving application performance.
- Migrated core legacy JavaScript modules to TypeScript, reducing runtime errors and improving codebase type safety across the team.
- Collaborated with senior engineers in agile sprints and code reviews to write clean, maintainable backend routes and REST APIs.

PROJECTS

Comsats Scholarship Portal

TypeScript | Next.js | Tailwind CSS | Vercel

Sep 2025 – July 2026

- Architected an automated platform to match students with financial awards, eliminating manual application processing overhead.
- Built custom Next.js API route handlers to integrate AI response automation for student scholarship inquiries.
- Designed responsive UI layouts with zero cumulative layout shift (CLS) across mobile and desktop devices.

Full Stack E-Commerce Platform

JavaScript | React | Node.js | Express.js | MongoDB | Stripe

Nov 2025 – Jan 2026

- Engineered a full-stack platform with real-time product filtering, search debouncing, and dynamic category sorting.
- Built RESTful API endpoints using Node.js/Express for user authentication, order processing, and administrative inventory control.
- Integrated Stripe API webhooks to securely handle real-time checkout payments and transaction verification.

Portfolio

TypeScript | Next.js | Tailwind CSS | Vercel

April 2025 – May 2025

- Developed a responsive personal portfolio in Next.js to display engineering projects and technical codebases.
- Implemented modern Tailwind styling and interactive component layouts optimized for fast rendering and mobile responsiveness.

EDUCATION

Bachelor of Science in Computer Science

COMSATS University Islamabad, Abbottabad Campus

Graduated: 2026

Pakistan
